# AGITATE

**While the GOP takes away our rights & the Dems make jokes about it, we are in the streets building the Revolution!**

We are a group composed of individuals & organizations from across the spectrum of the political “Left”, & from all walks of life. Different religions, nationalities, & identities united against Capitalism. If you are stand for worker liberation, you stand with us!

Live up to the Sunflower States long history of standing against oppression.

See our website for our member’s articles & stories of why we joined the cause.

# EDUCATE

Our members approach the revolution differently, with some establishing independent communities, organizing worker collectives, or even taking more direct actions. We provide you their knowledge & experience so that we can each be the foundation of a movement.

**Some of the activities we & our allies offer in preparation for revolution are...**

- Range days
- Guided Readings
- Workshops
- Protest Preparation
- Classes in Revolution

# ORGANIZE

The forces of Capitalism are united against us, so we must be similarly united to face them.

Across Kansas, National Organizations have for too long competed for time, members, & resources. Collective Action needs collective organizing. Together we are strong!
